Coding Strategies ® educational products and services are designed for medical specialty coding and compliance.. Unlike other learning programs, which simply review the coding guidelines, our resources are designed to provide practical know-how. The clinical modification of the WHO diagnosis coding system is the ICD-10-CM. Developed under the leadership of the National Center for Health Statistics, a federal agency under the Centers for Disease Control. ICD-10-CM was adopted in the U.S. on October 1, 2015. There have been subsequent revisions, additions, and corrections to ICD-10-CM codes and clarification of coding guidelines. This webcast will look at the current ICD-10 coding guidelines for reporting common gynecological and obstetrical conditions ...Browse the Educators Catalog for Health Information Academic Resources.
